"Knocking on Heaven's Door with Lisa Randall" Critics' pick

(212) 769-5100 | [amnh.org](#)
\$15, members \$13.50

You may want to brush up on your particle physics rather than brush off old Dylan albums before heading to this talk by Harvard professor and author Lisa Randall (*Knocking on Heaven's Door: How Physics and Scientific Thinking Illuminate the Universe and the Modern World*). The cosmologist will discuss her research on dark matter, the inner workings of the Large Hadron Collider, and other groundbreaking ideas in astrophysics before signing copies of her new book.
